3D Concrete Printing: A Strategic Opportunity

Transformation of the construction industry

Structural challenges

- Skilled labor shortage and an aging sector.
- Cost and timeline pressures in housing and infrastructure.
- Growing demands for sustainability and emissions reduction.
- Urgent need for digitalization and industrialization.

3D printing directly addresses these challenges by automating processes and reducing waste by up to 99%.

Why incorporate the sale and rental of 3D printers?

Official Cosmos Partner

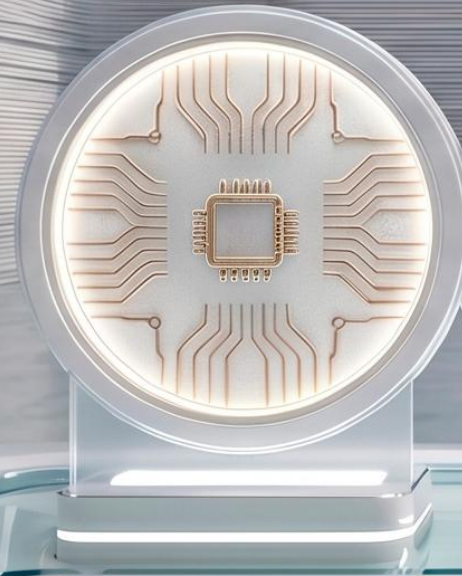

- Sale of 3D printers.
- Up to 30% commercial margin.

Recurring Revenue

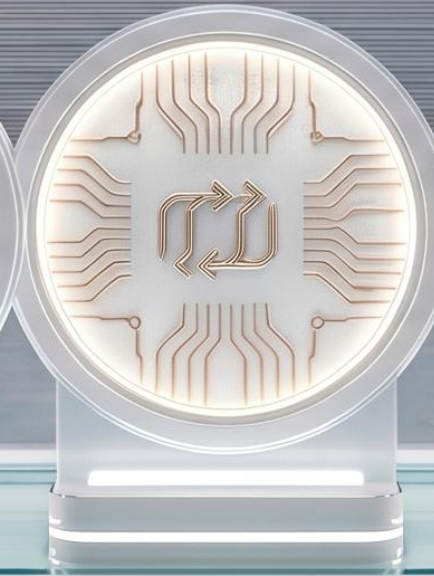

- 3D printer rental.
- Preventive and corrective maintenance contracts.
- Cosmos Prime renewals.

Cosmos Center

- Official Cosmos 3D Technical Service.
- Installation and commissioning.
- Technical Support.

Differentiation

Loyalty

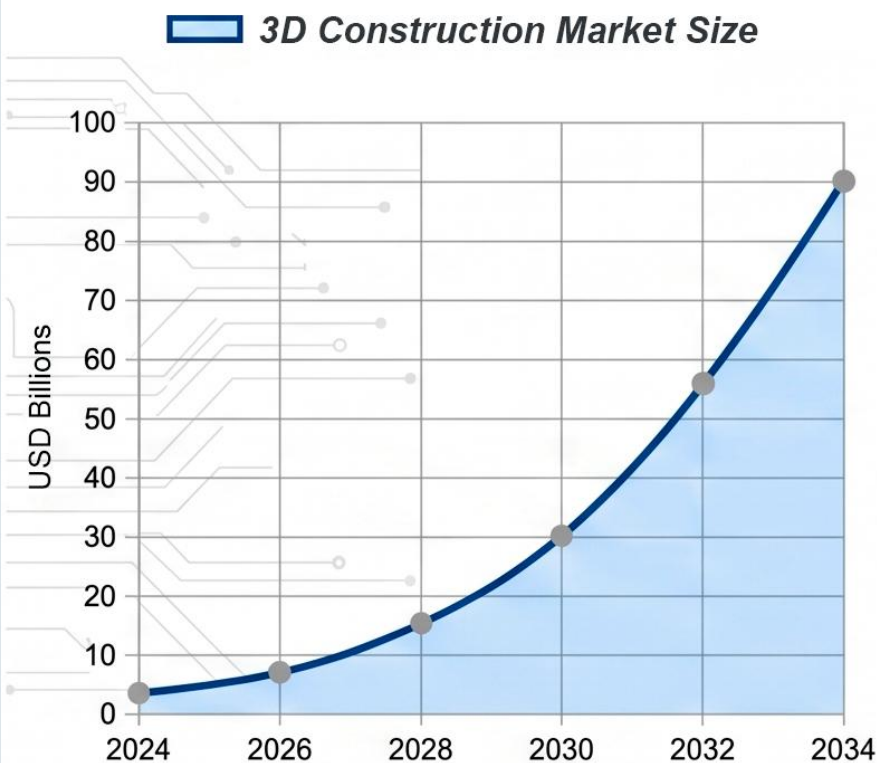

Leadership

Technology leader in an exponentially expanding market

Global Outlook and Growth of the 3D Construction (3DCP) Market

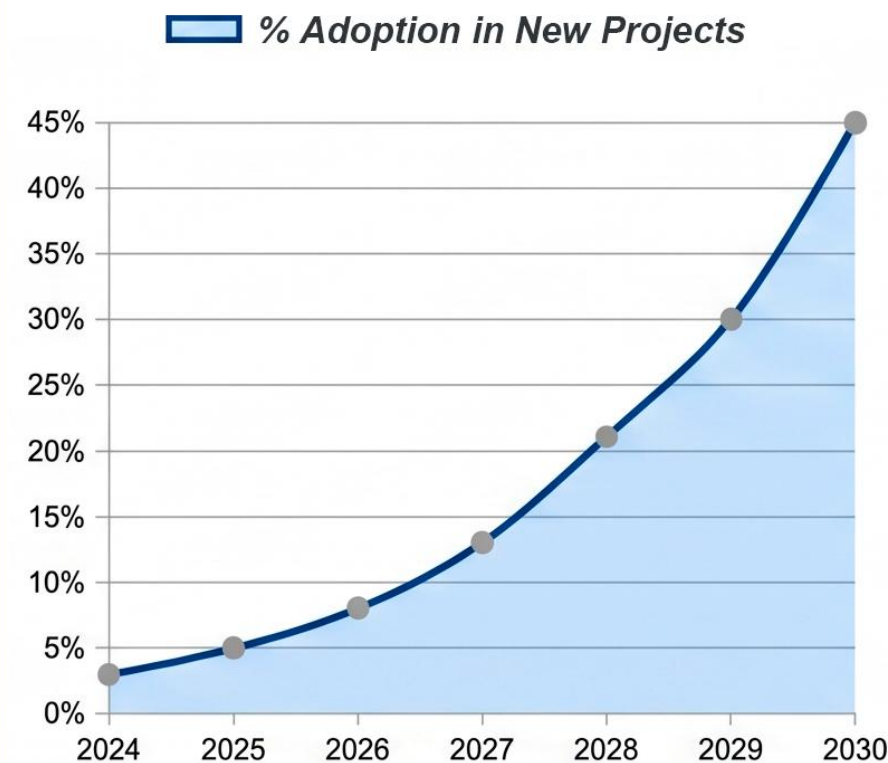

3D printing is transforming construction, offering a smarter, faster, and more sustainable path for global development.

3DCP MARKET GROWTH (2024-2034)

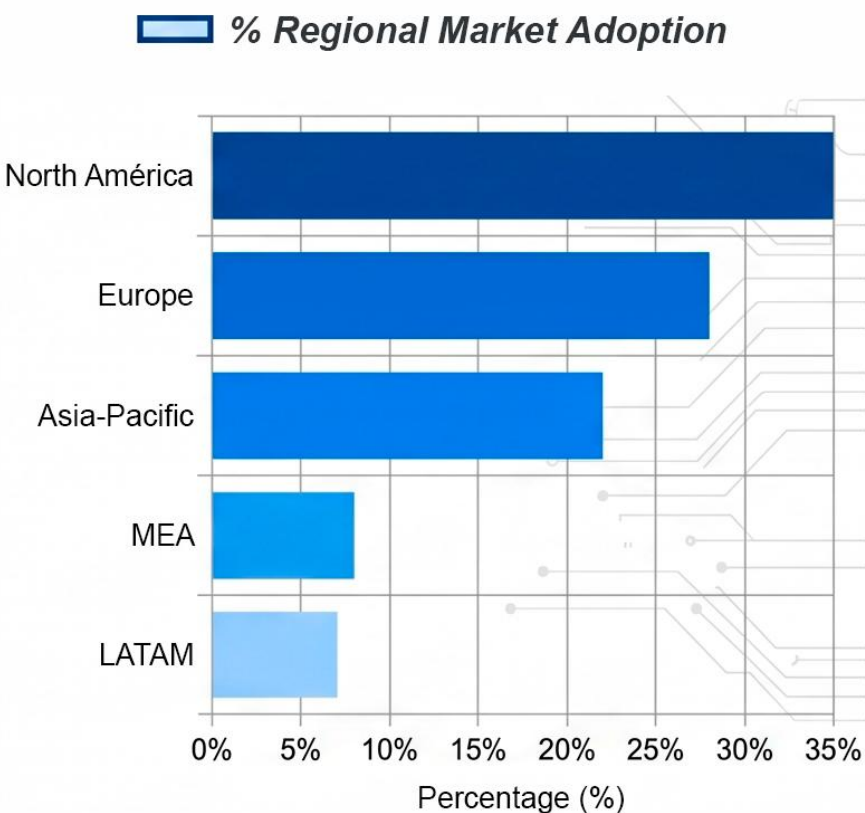

Driven by the demand for faster, more efficient, and sustainable construction, the 3D construction market shows a strong CAGR.

3DCP TECHNOLOGY ADOPTION (2024-2030)

The growing adoption of 3D printing in the construction industry highlights the clear and urgent need for its implementation to lead the sector.

REGIONAL MARKET BREAKDOWN (2025-2026)

North America and Europe lead the adoption of 3DCP technology. Regions such as Asia, MEA, and LATAM show exponential growth and investment.

Cosmos 3D Commercial Experience Center

Technical and commercial training space in a real 3D environment

Located in a **Cosmos Office**, built with Cosmos 3D precast concrete elements, this space is designed to train professionals in the operation, advantages, and engineering of our construction system. It also serves as a **commercial training** center where individuals learn to convey the brand's value and facilitate sales closing by experiencing the product firsthand.

Advantages for the Official Cosmos 3D Distributor

Sales Department

- Expansion of the solution catalog.
- Increased new customer acquisition.
- More cross-selling opportunities.
- Specialized sales support and training.

General Management

- New revenue stream and profitability.
- Competitive differentiation in the market.
- Association with an innovative, future-oriented brand.
- Sustainable growth through recurring services.

Technical Department

- Official Cosmos training and certification.
- Direct access to manufacturer support.
- Recurring revenue from maintenance and service.
- High value-added technical specialization.

TECHNOLOGICAL LEADERSHIP

More sales, more services, higher customer loyalty, and a market leadership position alongside **Cosmos 3D**.

Technical Training

Comprehensive programs on operation, maintenance, material configuration, and BIM integration.

Commercial Advisory

Identification of priority sectors, value propositions, and ROI calculations for end customer.

Project Support

Direct support in commissioning, joint presentations, and assistance in strategic pilot tests.

Special Conditions

Preferential agreements for flagship projects and key driving clients with high potential.

Cosmos Sales Club

Official training program certifying the commercial skills required to sell Cosmos 3D equipment.

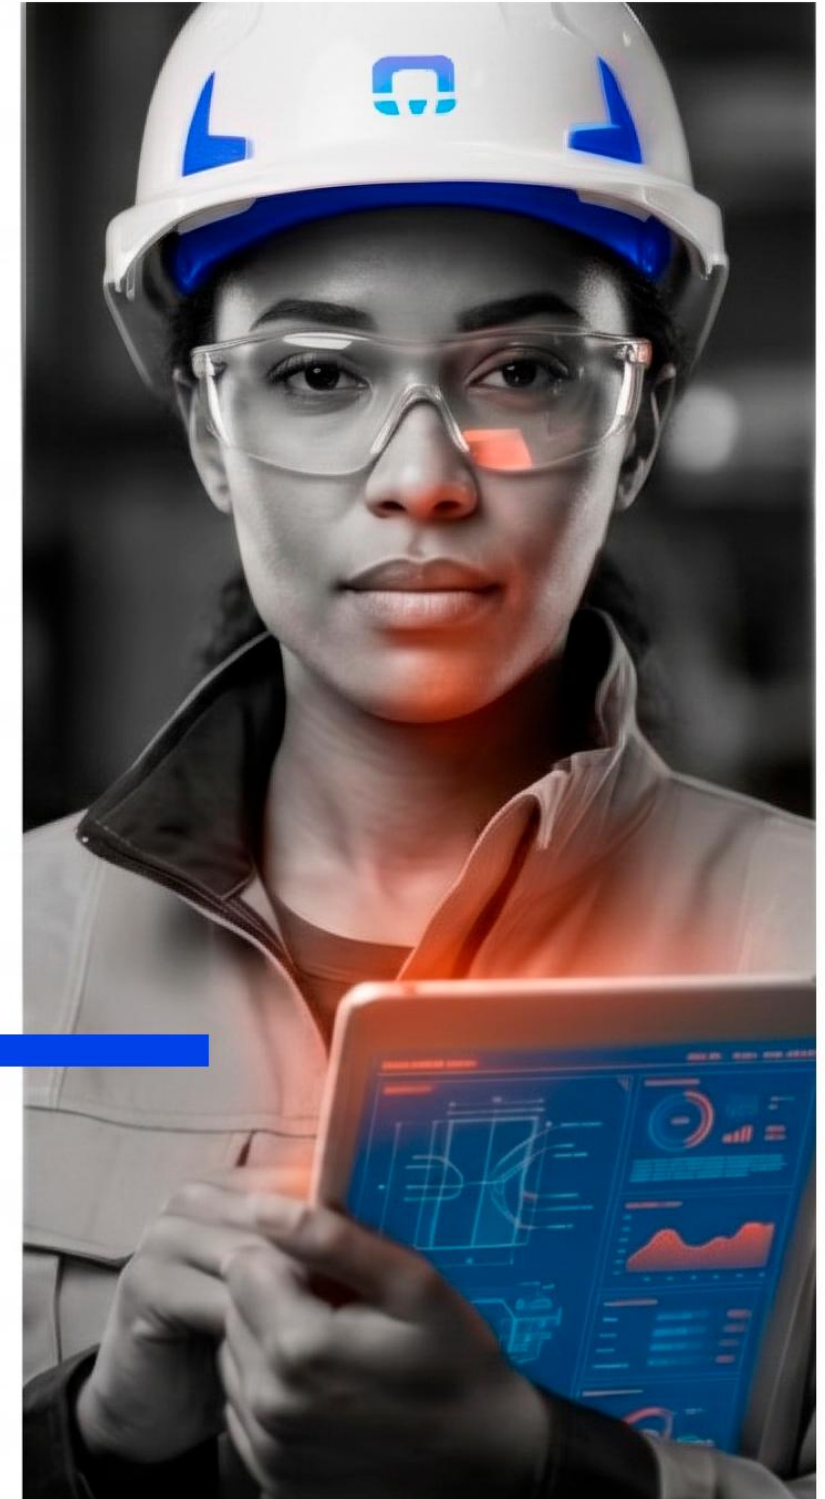

Comprehensive and end-to-end Cosmos 3D support

The true bottleneck of industrialized construction is not technology; it is the lack of a skilled workforce.

At Cosmos 3D, we train, support, and certify.

Cosmos Academy - Cosmos AI Platform - CaaS Service

Your leading partner.

We design and develop the best **3DCP** technology
to take your productivity to the next level.
